

CRAFT PROJECT BEJEWELED FLAMINGO

1. Gather your supplies. You will need a plastic flamingo, a good glue, glitter, mod podge, rhinestones and spray sealer.

2. Glue your rhinestones onto the flamingo except for on the wings.

3. Spread the Mod Podge all over one of the wings, and then add a bunch of glitter.

4. Let it dry completely and then spray with clear sealer. Once dry, it's ready to be the envy of all your neighbors!
